DETAILED ACTION

Response to Amendment/Remarks

The rejection of claims 1, 15/1, and 15/2/1 under 35 U. S. C. 102 (b) as anticipated by USPN 6,464,366 to Lin et al is withdrawn because Applicant amended claim 1 to include the subject matter of claim 10 that was noted as allowable in Office Action mailed June 20,2005. Examiner acknowledges that Applicant has canceled claims 10 and 27-30 without prejudice. Claims 2-9 and 13-26 were withdrawn from consideration due to the restriction requirement of Office Action mailed April 4,2005. These claims depend from generic claim 1 and are back in the instant application.

Allowable Subject Matter

Claims 1-9 and 11-26 are allowed.

Regarding claims 1, 2-9 and 11-26

The following is an examiner's statement of reasons for allowance: Claim 1 includes A light guide comprising input area, first and second opposing surfaces for propagation, extraction structures that extract light from light guide so that angular direction of light extracted from light guide is in direction substantially orthogonal to a principal axis of the extraction structures. This combination of limitations is not found or taught in the art of record. In particular, the prior art of record, cited as Lin, which is most pertinent to applicant's invention, does not have extraction structures that extract light from light guide so that angular direction of light extracted from light guide is in a direction substantially orthogonal to a principal axis of the extraction structures.

Claims 2-9 and 11-26 depend from claim 1 and are allowable for the same reasons.

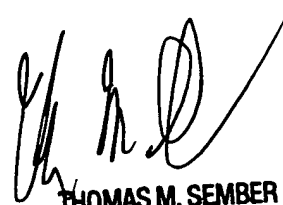

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
